Analysis of the Advantages and Disadvantages of Non- sexual Dual Relationships in College Psychological Consulting and Countermeasures

HE Yuan- qing WANG Jing- xian

Department of Psychology, College of Education and Science, Anhui Normal University, Wuhu 241000, China

Abstract It is always controversial that non- sexual dual relationships in colleges and universities should be banned. The previous research and the actual situation suggest that there are both advantages and disadvantages to the non- sexual dual relationships in colleges and universities. The paper will make a specific analysis of the advantages and disadvantages, and put forward reasonable countermeasures: to establish and maintain elastic settings of psychological consultation and treatment, to strengthen the construction of independence of psychological consultation in colleges and universities, and to carry out evidence- based practice, assess the effect of psychological counseling in time.
